

Kimberly Paola García Sabillón

Full Stack Software Engineer

Senior Full-Stack Engineer (5 yrs) specialized in React/TypeScript and Node.js, shipping scalable, production-grade applications for U.S. companies. Strong ownership of architecture, performance optimization and rapid end-to-end feature delivery in cloud environments.

EXPERIENCE

Knomee — Senior Full Stack Developer 2025 — Present

- Owned architecture-level features for Knomee, a SOC2-compliant behavioral discovery platform serving wealth management firms, implementing secure authentication, scalable APIs and cloud deployments (Next.js, NestJS, Clerk, Vercel/Render).
- Established architecture guidelines, enforced best practices and conducted code reviews to ensure quality and consistency across the codebase.

Code Éxitos — Full Stack Developer 2023 — 2025

- Engineered a dynamic, form-driven data-collection platform, delivering secure submission flows and scalable cloud integrations (Next.js, NestJS, AWS).
- Led the migration of a legacy time-tracking web app for a U.S. client, scaling it from 100K to 1M (.NET, AWS and Vue.js).
- Delivered core features for a sales automation platform built for a major global automotive enterprise, improving quoting, customer data workflows and digital-signature operations at scale (Vue.js, AWS, NestJS).
- Conducted code reviews and implemented development guidelines to raise code quality and system maintainability.

HanesBrands — Software Developer 2021 — 2023

- Delivered a logistics management system for ship-schedule coordination and container-tracking operations, streamlining workflows using modular frontend architecture, Express.js and PostgreSQL.
- Reduced development overhead by introducing reusable components and documented APIs across the team.

SKILLS

Frontend Development: React, Next.js, TypeScript, Vue (additional).

Backend Development: .NET, Node.js, NestJS, Express.

Version Control & DevOps: GitHub, GitHub Actions, CI/CD, Docker, AWS, GCP.

APIs & Data: GraphQL, REST APIs.

Databases: SQL & NoSQL (PostgreSQL, MongoDB, Firebase, SQL Server).

Testing & Automation: Jest, Vitest, Playwright.

Programming Languages: C#, JavaScript.

Languages: Spanish (Native) & English (Advanced Certification).

EDUCATION

UNAH-VS, San Pedro Sula — Systems Engineering · 2018–2022 · *Magna Cum Laude*
